

Installation of probe-holders on probes for portable instruments

PROBE-HOLDERS

There are two different probe-holders : the first one is for wireless probes and the second one is for wired probes.

Probe-holder for wireless probes

Probe-holder for wired probes

INSTALLATION OF THE PROBE-HOLDERS

➤ Wireless probe :

- Place the wireless probe to see the back side (label side).
- Slide the probe-holder through the top of the probe (see **installation 1** photo).
- Place the two lock pines in the two screw holes located on the top of the wireless probe (see **installation 2** photo).
- Insert the slide of the probe-holder into the slot situated on the side of the protective cover (see following page).
